

HORSMONDEN PARISH COUNCIL

ANNUAL INVESTMENT STRATEGY 2025-26

Introduction:

Horsmonden Parish Council acknowledges the importance of prudently investing all funds held on behalf of the community by the Council.

The Parish Council Investment Strategy complies (as appropriate) with the revised requirements set out in the Guidance on Local Government investments issued by the Department of Communities and Local Government in April 2010.

Investments under £10,000 are not subject to the Guidance but for investments between £10,000 and £500,000 the Council is required to make a formal decision on the extent to which it would be reasonable to adopt the Guidance either in part or in full. When making investments over £500,000, the Council is required to adopt the Guidance in full and to put an investment strategy into place.

Strategy:

The Parish Council has adopted the Secretary of State's Guidance in full.

In accordance with Section 15(1) of the Local Government Act 2003, the Council will, therefore, have regard (a) to such Guidance as the Secretary of State may issue and (b) to such other Guidance as the Secretary of State may by regulations specify.

The Council's investment priorities are the security of reserves and liquidity of its investments.

The Council will aim to achieve the optimum return on its investments commensurate with proper levels of security and liquidity.

All investments will be made in sterling.

The Department for Communities and Local Government maintains that borrowing of monies purely to invest or to lend and make a return is unlawful and this Council will not engage in this activity.

The Council will monitor the risk of loss on investments by periodically reviewing credit ratings and will only invest in institutions with a high credit quality. Any reduction in credit rating will be reported to the Council and, if necessary, the Proper Officer will take appropriate action within delegated powers to protect Council assets.

If an external investment manager is used, he/she will be contractually required to comply with the Strategy.

The Council's Responsible Financial Officer will endeavour to attend the KALC annual finance conference in order to remain up to date with financial regulations and requirements.

Specified Investments:

Specified Investments are those offering high security and high liquidity, made in sterling and with a maturity of no more than 12 months. Such short-term investments made with a body or investment scheme of high quality (including the UK Government or a local authority) will automatically be Specified Investments. The Council will only invest in institutions with a minimum 'A' rating from approved credit rating organisations and will aim to spread its capital assets amongst a range of appropriate institutions.

For the prudent management of its funds, maintaining sufficient levels of security and liquidity, the Council will use:

- Deposits with banks, building societies, UK Government or local authorities

Non-Specified Investments:

These investments have greater potential risk – examples include investment in the money market, stocks and shares – and professional investment advice may be required.

Given the unpredictability and uncertainties surrounding such investments, the Council will not use this type of investment.

Liquidity Investments:

The Responsible Financial Officer / Proper Officer will determine the maximum periods for which funds may prudently be committed so as not to compromise liquidity.

Investments will be regarded as commencing on the date on which the commitment to invest is entered into rather than the date on which funds are paid over to the counterparty.

Long Term Investments:

All investments by local councils, other than in interest bearing bank and building society accounts, must be identified as long-term investment and treated as capital expenditure. Investments in longer term funds (in excess of 12 months) are by definition long term investments and, thus, deemed to be capital expenditure. Any investment in longer term funds should not exceed the surplus of cash balances above the Council's annual budgeted expenditure reduced by the annual precept.

Investment Report:

Investment forecasts for the forthcoming financial year are accounted for when the annual budget is prepared. Investments will be reviewed annually following a report from the Responsible Financial Officer to the Finance Committee.

Review and Amendment of Regulations:

The Council's Investment Strategy will be reviewed annually and at other times as necessary. The Annual Strategy for the financial year will be prepared by the Responsible Financial Officer and presented to the Full Council.

Publication:

The Investment Strategy will be published and available in hard copy and on the Council's website.

2025-26 Investment Plan

In July 2024 it was agreed by Full Council that £40,000 should be taken from the 40-day notice account and reinvested in a one-year bond, also with United Trust Bank, as this guaranteed a higher rate of return. The remaining investment in the 40 Day Notice Account with United Trust Bank would continue to earn interest at a lower rate but was more accessible if required.

In July 2025 the one year bond with United rust Bank matured realising a return of £42,024.00 It was decided by Full Council on 7 July 2025 to reinvest £40,000 in a further one year bond with United Trust bank at an interest rate of 4.21 % This would help maximise the Council's return upon their investments, whilst keeping a good amount of the investment liquid in case it was required. The interest payment of £2024 was transferred to the Council's current account with Unity Trust Bank .

Officers responsible for dealing with Financial Management will endeavour to attend conferences / training as offered by KALC and other appropriate bodies.
